

What's Next for the MPI Audit Initiative?

Project update

POLL #1 How familiar are you with poverty audits?

- ☐ Have you audited poverty-related topics?
- ☐ Have you used multidimensional indicators?
- ☐ Would MPI indicators add value to future audits?

WHY PILOT AUDITS MATTER

Jorge Oliveira Castro

**1 NO
POVERTY**

MPI PILOT AUDITS

Guidelines are only as strong as their application.

- Test in diverse national contexts:
 - Different mandates
 - Different data systems
 - Different governance environments
- What works, what needs clarification, and what requires adaptation
- Contribute with practical lessons, examples, and evidence that strengthen the Guidelines for all SAIs.

MPI AUDIT FINDINGS

- Results will be shared with global decision-makers to support actions against multidimensional poverty and contribute to achieving SDG Target 1.2.
- The project will culminate in a **flagship** report that will be presented at an international seminar in Brazil, organized in partnership with UNDP

POLL #2

- ☐ Ready to conduct a pilot audit
- ☐ Interested but need support
- ☐ Curious but not yet convinced
- ☐ Probably not for us

WHAT WILL HAPPEN IN BRASÍLIA?

Giuseppe Antonaci

From Guidelines to Audits: A Planning Workshop for SAIs

Develop	Learn	Collaborate
• Identify an audit topic relevant to your national context • Define audit objectives and questions • Explore evidence sources and data challenges • Design initial audit approaches	• Work with MPI experts and experienced auditors • Exchange ideas with peer SAIs • Discuss methodological challenges in a practical setting	• Test the draft Guidelines • Share lessons across different contexts • Help shape future versions of the Guidelines

9-13 November 2026 | Brasília, Brazil

Not a conference. A hands-on audit planning lab

What Will Participating SAs Leave With?

Output 1 A Draft Pilot Audit Plan

- Potential audit scope
- Audit objectives and questions
- Initial methodology
- Data strategy
- Next implementation steps

Output 2 Influence on the Future Guidelines

- Practical feedback from testing
- Identification of methodological gaps
- Lessons from different national contexts
- Contribution to refinement of the MPI Audit Guidelines

Join the first group of SAs turning the MPI Audit Guidelines into practice!

Myth

Reality

Myth or reality?

Multidimensional poverty audit
requires specialist poverty researchers

Myth or reality?

Only developing countries face
multidimensional poverty

Myth or reality?

An MPI audit can be adapted to
national priorities

Myth or reality?

A pilot audit must be large and complex

WHY PARTICIPATE?

Raisa Ojala

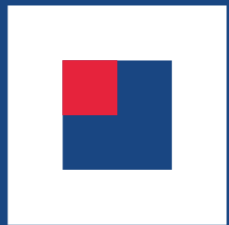

Join the Global Pilot Audit Network!

Why should my SAI join?

- Strengthen your SAI's capacity to audit complex social challenges
- Access to international expertise and peer learning
- Strengthen impact-oriented audit planning
- An opportunity to influence international audit practice
- Help advance action against multidimensional poverty
